

## Outpatient Mental Health Clinics

Family Continuity's Outpatient Mental Health Clinics utilize an eclectic, strengths-based client- and family-centered approach that addresses the psychological and psychiatric needs of families and individuals. Services are provided at the clinic or in a client's home. Treatment plans are individualized to each family or individual's needs.

Our clinicians specialize in a variety of areas, including anger management, behavior problems, depression, eating disorders, marital conflict and substance abuse issues.

### Specific Services Offered

- ~ Outreach and clinic based
- ~ Individual, family and group therapy
- ~ Individual and family assessment
- ~ Assistance in accessing community resources
- ~ Around-the-clock emergency response

### Referrals

Family Continuity accepts self-referrals as well as referrals from a variety of resources, including state agencies, hospitals and other community services.

### Cost

We accept most insurance and offer a limited sliding-fee scale. Clients are responsible for insurance co-pays and uninsured costs.
